Contents of Volume 19

Number 1

D. B. Timmermann, T. M. Lund, B. Belhage and **A. Schousboe**	1	Localization and pharmacological characterization of voltage dependent calcium channels in cultured neocortical neurons
E. Hösli, K. Jurasin, W. Rühl, R. Lüthy and **L. Hösli**	11	Colocalization of androgen, estrogen and cholinergic receptors on cultured astrocytes of rat central nervous system
N. Kishi, Z. Tang, Y. Maeda, A. Hirai, R. Mo, M. Ito, S. Suzuki, K. Nakao, T. Kinoshita, T. Kadesch, C.-c. Hui, S. Artavanis-Tsakonas, H. Okano and **K. Matsuno**	21	Murine homologs of *deltex* define a novel gene family involved in vertebrate Notch signaling and neurogenesis
H. Nishio, S. Kasuga, M. Ushijima and **Y. Harada**	37	Prenatal stress and postnatal development of neonatal rats — sex-dependent effects on emotional behavior and learning ability of neonatal rats
I. Podkletnova, J. D. Rothstein, P. Helén and **H. Alho**	47	Microglial response to the neurotoxicity of 6-hydroxydopamine in neonatal rat cerebellum
H. Ábrahám, T. Tornóczky, G. Kosztolányi and **L. Seress**	53	Cell formation in the cortical layers of the developing human cerebellum
S. Woerly, v. D. Doan, N. Sosa, J. de Vellis and **A. Espinosa**	63	Reconstruction of the transected cat spinal cord following NeuroGel™ implantation: axonal tracing, immunohistochemical and ultrastructural studies
R. Miskimins and **W. K. Miskimins**	85	A role for an AP-1-like site in the expression of the myelin basic protein gene during differentiation
J. M. Schwab, H. J. Schluesener, K. Seid and **R. Meyermann**	93	IL-16 is differentially expressed in the developing human fetal brain by microglial cells in zones of neuropoesis
M. Kálmán and **B. M. Ajtai**	101	A comparison of intermediate filament markers for presumptive astroglia in the developing rat neocortex: immunostaining against nestin reveals more detail, than GFAP or vimentin
M. Virgili, B. Monti, E. Polazzi, G. Angiolini and **A. Contestabile**	109	Topography of neurochemical alterations in the CNS of aged rats
	I	Forthcoming papers

Special Issue

ESSAYS CELEBRATING THE CENTENARY OF THE PIONEER NEUROEMBRYOLOGIST, VIKTOR HAMBURGER

	iii	Frontpiece
	v	Bibliography of Viktor Hamburger (1925–1999)
	ix	Preface
	xi	Contributors
R. W. Oppenheim and J. M. Lauder	117	Viktor Hamburger at 100: eight decades of neuroembryological research, 1920–2000
D. Sloan and C. Marte	123	Growing up with Chuck and Dick and Viktor Hamburger
H. L. Carson	125	A new era in science at Washington University, St. Louis: Viktor Hamburger's zoology department in the 1940's

T. H. Dunnebacke	133	The Zoology Department at Washington University (1944–1954): from undergraduate to graduate studies with Viktor Hamburger
B. S. Wenger and E. Wenger	139	Viktor Hamburger's Department of Zoology in the 1940s: a student perspective
R. R. Provine	143	In the trenches with Viktor Hamburger and Rita Levi-Montalcini (1965–1974): One student's perspective
T. H. Dunnebacke	133	The Zoology Department at Washington University (1944–1954): from undergraduate to graduate studies with Viktor Hamburger
B. S. Wenger and E. Wenger	139	Viktor Hamburger's Department of Zoology in the 1940s: a student perspective
R. R. Provine	143	In the trenches with Viktor Hamburger and Rita Levi-Montalcini (1965–1974): One student's perspective
J. K. Brunso-Bechtold	151	Viktor Hamburger, a Tribute
A. Bekoff	155	Spontaneous embryonic motility: an enduring legacy
M. Hollyday	161	Neurogenesis in the vertebrate neural tube
L. T. Landmesser	175	The acquisition of motoneuron subtype identity and motor circuit formation
C. Wahl and D. M. Noden	183	Cryptic responses to tissue manipulations in avian embryos
R. P. Skoff, D. A. Bessert, J. D. E. Barks, D. Song, M. Cerghet and F. S. Silverstein	197	Hypoxic–ischemic injury results in acute disruption of myelin gene expression and death of oligodendroglial precursors in neonatal mice
F. A. K. M. Ahmed, P. Chaudhary and S. C. Sharma	209	Effects of increased intraocular pressure on rat retinal ganglion cells
V. Coskun, G. Venkatraman, H. Yang, M. S. Rao and M. B. Luskin	219	Retroviral manipulation of the expression of bone morphogenetic protein receptor Ia by SVZa progenitor cells leads to changes in their $p19^{INK4d}$ expression but not in their neuronal commitment
	1	Forthcoming papers

Number 3

Special Issue

NEURONAL PLASTICITY AND DEGENERATION

R. Schliebs	229	Preface: Neuronal plasticity and degeneration
T. Arendt	231	Disturbance of neuronal plasticity is a critical pathogenetic event in Alzheimer's disease
H. Rüthrich, G. Grecksch and M. Krug	247	Development of long-lasting potentiation effects in the dentate gyrus during pentylenetetrazol kindling
R. Jüttner, C. Henneberger, R. Grantyn and T. Rothe	255	Early onset of glutamatergic and GABAergic synaptic activity in the visual layers of the rodent superior colliculus
U. Krügel, V. Bigl, K. Eschrich and M. Bigl	263	Deafferentation of the septo-hippocampal pathway in rats as a model of the metabolic events in Alzheimer's disease

T. Löffler, S. Al-Robaiy, M. Bigl, K. Eschrich and R. Schliebs — 279 Expression of fructose-1.6-bisphosphatase mRNA isoforms in normal and basal forebrain cholinergic lesioned rat brain

E. Kirazov, L. Kirazov, V. Bigl and R. Schliebs — 287 Ontogenetic changes in protein level of amyloid precursor protein (APP) in growth cones and synaptosomes from rat brain and prenatal expression pattern of APP mRNA isoforms in developing rat embryo

V. Mareš and G. Brückner — 297 Fucosylated glycans in the periventricular structures and the cerebrospinal fluid of the fetal rat forebrain. An autoradiographic and lectin binding histiotopic study

B. E. Leonard — 305 Changes in the immune system in depression and dementia: causal or co-incidental effects?

S. Roßner, M. K. Brückner and V. Bigl — 313 Developmentally induced microencephalopathy in guinea pigs—embryonic glial cell activation marks selective neuronal death

N. Milivojevic, K. Babic, D. Milatovic, W.-D. Dettbarn, D. Sket and M. Zivin — 319 *N-tert*-butyl-alpha-phenylnitrone, a free radical scavenger with anti-cholinesterase activity does not improve the cognitive performance of scopolamine-challenged rats

A. Sato, Y. Sato and S. Uchida — 327 Regulation of regional cerebral blood flow by cholinergic fibers originating in the basal forebrain

R. Gašperšič, B. Koritnik, I. Eržen and J. Sketelj — 339 Muscle activity-resistant acetylcholine receptor accumulation is induced in places of former motor endplates in ectopically innervated regenerating rat muscles

U. Gärtner, W. Härtig, K. Brauer, G. Brückner and T. Arendt — 347 Immunofluorescence and immunoelectron microscopic evidence for differences in myelination of GABAergic and cholinergic septohippocampal fibres

I Forthcoming papers

III Announcement

Number 4

ISDN 2000 Conference papers

P. P. Boyl, M. Signore, A. Annino, J. P. Martinez Barbera, D. Acampora and A. Simeone — 353 *Otx* genes in the development and evolution of the vertebrate brain

C. G. Nebigil, N. Etienne, B. Schaerlinger, P. Hickel, J.-M. Launay and L. Maroteaux — 365 Developmentally regulated serotonin 5-HT_{2B} receptors

C. Klämbt, T. Hummel, S. Granderath and K. Schimmelpfeng — 373 Glial cell development in *Drosophila*

R. H. Woodruff, N. Tekki-Kessaris, C. D. Stiles, D. H. Rowitch and W. D. Richardson — 379 Oligodendrocyte development in the spinal cord and telencephalon: common themes and new perspectives

S. Poser and D. R. Storm — 387 Role of Ca^{2+}-stimulated adenylyl cyclases in LTP and memory formation

Regular papers

R. Ciccarelli, P. Ballerini, G. Sabatino, M. P. Rathbone, M. D'Onofrio, F. Caciagli and P. Di Iorio — 395 Involvement of astrocytes in purine-mediated reparative processes in the brain

W. L. Huang, C. G. Harper, S. F. Evans, J. P. Newnham and S. A. Dunlop — 415 Repeated prenatal corticosteroid administration delays myelination of the corpus callosum in fetal sheep

R. L. Stariha and S. U. Kim — 427 Mitogen-activated protein kinase signalling in oligodendrocytes: a comparison of primary cultures and CG-4

G. Johnson and S. W. Moore — 439 Association of the HNK-1 epitope with the detergent-soluble G4 isoform of acetylcholinesterase from human neuroblastoma cells

A. R. Del Angel-Meza, L. Ramírez-Cortés, E. Olvera-Cortés, M. I. Pérez-Vega and I. González-Burgos — 447 A tryptophan-deficient corn-based diet induces plastic responses in cerebellar cortex cells of rat offspring

G. M. Kelly, B. Vanderbeld, R. Krawetz and S. Mangos — 455 Differential distribution of the G protein $\gamma 3$ subunit in the developing zebrafish nervous system

S. L. Schmidt, R. W. F. Vitral and R. Linden — 469 Effects of prenatal ionizing irradiation on the development of the ganglion cell layer of the mouse retina

S. L. Schmidt, R. W. F. Vitral and R. Linden — 475 Depletion of cortical target induced by prenatal ionizing irradiation: effects on the lateral geniculate nucleus and on the retinofugal pathways

I Forthcoming Papers

III Announcement

Number 5

J. R. Perez-Polo — 485 A note from the Editor-in-Chief

W. L. Huang, C. G. Harper, S. F. Evans, J. P. Newnham and S. A. Dunlop — 487 Repeated prenatal corticosteroid administration delays astrocyte and capillary tight junction maturation in fetal sheep

J. Villalobos, O. Rios and M. Barbosa — 495 Postnatal development of cholinergic system in mouse basal forebrain: acetylcholinesterase histochemistry and choline-acetyltransferase immunoreactivity

W. L. Heck, W. E. Renehan and L. Schweitzer — 503 Redistribution and increased specificity of $GABA_B$ receptors during development of the rostral nucleus of the solitary tract

J. Mey and V. Johann — 517 Dendrite development and target innervation of displaced retinal ganglion cells of the chick (*Gallus gallus*)

N. K. Dhingra, R. Reddy, Govindaiah, U. Hemavathy, T. R. Raju and Y. Ramamohan — 533 Synaptic development in semi-dissociated cultures of rat retina

I Forthcoming Papers

III Announcement

Number 6

M. A. Altinoz, A. Bilir, E. Ozar, F. D. Onar and A. Sav — 541 Medroxyprogesterone acetate alone or synergistic with chemotherapy suppresses colony formation and DNA synthesis in C6 glioma in vitro

H. Koo and B. H. Choi — 549 Expression of glial cell line-derived neurotrophic factor (GDNF) in the developing human fetal brain

S. P. F. Pereira, S. V. Medina and E. G. Araujo — 559 Cholinergic activity modulates the survival of retinal ganglion cells in culture: the role of M_1 muscarinic receptors

T. Lum, G. Huynh and G. Heinrich — 569 Brain-derived neurotrophic factor and TrkB tyrosine kinase receptor gene expression in zebrafish embryo and larva

B. M. Ajtai and M. Kálmán — 589 Reactive glia support and guide axon growth in the rat thalamus during the first postnatal week. A sharply timed transition from permissive to non-permissive stage

J. Martí, K. V. Wills, B. Ghetti and S. A. Bayer — 599 Evidence that the loss of Purkinje cells and deep cerebellar nuclei neurons in homozygous weaver is not related to neurogenetic patterns

I Forthcoming papers

III Announcement

Number 7

S. Saszik and J. Bilotta — 611 Constant dark-rearing effects on visual adaptation of the zebrafish ERG

J. Bilotta and S. Saszik — 621 The zebrafish as a model visual system

J. Kim, S. C. Choi, T. H. Kim, K. D. Kim, S. Y. Cho, S. S. Park and S. H. Lee — 631 Isolation of neuronal precursors from differentiating P19 embryonal carcinoma cells by neuronal *7α1*-promoter-driven GFP

Y. Abreu-Villaça, S. M. Schanuel and S. L. Schmidt — 639 Time course of the effects of prenatal gamma irradiation on the dorsal lateral geniculate nucleus of Swiss mice

S. L. Bertí, C. D. Bonan, F. L. da Silva, A. M. O. Battastini, J. J. F. Sarkis and C. M. D. Wannmacher — 649 Phenylalanine and phenylpyruvate inhibit ATP diphosphohydrolase from rat brain cortex

S. Okoyama and T. Moriizumi — 655 Onset of calbindin-D 28K and parvalbumin expression in the lateral geniculate complex and olivary pretectal nucleus during postnatal development of the rat

G. Huynh and G. Heinrich — 663 Brain-derived neurotrophic factor gene organization and transcription in the zebrafish embryo

D. M. Jurič and M. Čarman-Kržan — 675 Interleukin-1β, but not IL-1α, mediates nerve growth factor secretion from rat astrocytes via type I IL-1 receptor

III Announcement

Number 8

Abstracts to the 14th Biennial Meeting of the International Society for Developmental Neuroscience, 31st January to 4th February 2002, Sydney, Australia

685 Abstracts

687 Symposia

701 Oral Sessions

711 Poster Sessions
